

CIS 3760 – Software Engineering
Instructor: Prof. S. Scott
Individual Accountability Report (IAR) Template

Q1. Student Name: Arash Esfandiari

Q2. Student ID: 1019706

Q3. Associated Team Deliverable: Restore deleted tasks

Q4. Section#, Team #: 2 ,2

Q5. What were the main technical or methodological concepts and/or skills that were required to complete this team deliverable? (bulleted list is preferred):

- Understanding the Application's UI
- Understanding the Application's Database

Q6. What was your existing level of experience with these topics/skills before your team began working on this deliverable? (1-2 sentences):

I has some understanding of data base management systems, but I have never worked with android's SQLite nor UI elements

Q7. Comment on your individual academic, methodological, or technical learning during this deliverable, and what additional learning may be needed to understand or be more competent with these topics in the future?

Extremely improved my understanding of android application structure and database. Thorough understanding of these topics is needed to be more competent.

Q8. What specific contributions did you make to this team deliverable? This should include technical or project management contributions.

I completed this task by myself including making changes to the database and UI.

Q9. With whom did you collaborate for any of the above contributions (be specific)?

I received some help from Nick and Danish.

Q10. Comment on how well you managed your time over the time period allocated in the Course timetable to this team deliverable (i.e., the time between the prior team deliverable to this team deliverable).

The task was not 100% completed on time due to bugs in the original code and my inexperience.
